State Controller's Warrants.

The undersigned will pay the highest price
for State Controller's Warrants.
D. A. BENDER.

The Skating Carnival came off
as by appointment last night. When
we dropped in, about 9 o'clock, a
dozen or more masked and costumed
skaters were on the floor. One of
these, a very tall man who seemed
quite an expert skater, had the seat
of his pantaloons padded with a view
to any accidental falls that might
occur, rearwards; and we saw him
perform several plumpers, many of
them by design. It was quite a grotesque
scene, and none the less so
from the fact that the fun had a
serious, noisome, melancholy tinge;
for nobody laughed, and all seemed
very much matter of fact like. The
audience was quite a numerous one.
We did not stop to find out who got
the prizes.

Masses will be celebrated in the
Catholic church on Sunday next, the
8th instant, at 8 A. M. and 10:30 A. M.
Vespers and benediction of the
blessed sacrament at 7:15 P. M. Rev.
F. DeCarie will preach at the 10:30
o'clock mass; also at the evening de-
votions.

Mr. D. A. Bender is considerably
under the weather, we are sorry to
learn, with an attack of some sort of
intermittent fever. He must get
himself well enough to be ready for
the May election.

The Bonanza Verdict.

The closing out of the Bonanza
suit seems to have left our little city
with scarcely less of a sense of empti-
ness and collapse than results from
the adjournment of the Legislature.
During the late trial there was a
good deal of what is called "outside
pressure" on the streets and about
the lobbies of the Court. This pres-
sure, either from interest in a com-
mon cause or from a well sustained
effort resulting from premeditation,
or from both those incentives, was
very largely in favor of the plaintiffs.
The current of public sympathy
seemed to be in their favor. The
comments which were not at all
sparingly indulged in in bar rooms
and other public places were any-
thing but complimentary either to
the Bonanza firm or, after his charge,
to Judge Sawyer. But we think we
noticed a very decided sense of relief
manifest in quieter and more con-
servative quarters when the verdict
had been announced. It seems to be
a very general impression among
the sober and better elements of our
society that the attack upon the Cal-
ifornia Company's title, would, if
successful, have opened the way to
a most disastrous unsettlement of all
titles on the line of the Comstock.
The risks of mining are of them-
selves great enough, without the
ownership of the mines themselves
being subjected to such dangers as
this. Without impugning any man's
motives or integrity, it may not un-
justly be said that we cannot expect
the resources of this State to receive
the developing power of capital if
titles to valuable property are to be
held subject to such apparently
loose-constructed memories as John
Bishop's. The jury who tried this
case have declared that he did sign
that deed. It matters not what atti-
tude this puts him in, this verdict
practically declares that the signa-
ture to the Barron deed is his, his
denial to the contrary notwithstanding.
And we do most earnestly be-
lieve it is his signature. A compar-
ison of the alleged forgery with the
name signed in the Court room set-
tles the case, past all conjecture, in
our mind; and we have no doubt it
did, in the minds of the jury. As to
Judge Sawyer's charge, strong as it
was, we doubt if it had any further
effect than to justify and encourage
the jury in a conclusion themselves
had reached. We wish that all our
trial Courts might have the benefit
of just such an independent bench.
If they had, we should see fewer
rogues and criminals going free and
laughing at judges, juries and indict-
ments.

WILLIAM SMILEY, who was lately
reported dead by one of the Eureka
papers, and who was badly lead
poisoned there by the fumes from a
smelting furnace, came into this
office yesterday to furnish the living
proof of the incorrectness of the
aforesaid newspaper statement. Mr.
Smiley says he was very much pro-
strated before he left Eureka, and
that he was threatened with blind-
ness and paralysis. Since returning
here (his old place of residence), his
health has very rapidly improved
and he has gained in health and
flesh. Indeed he is now almost
wholly restored. He thinks he made
a fortunate escape from very serious
consequences; and the result seems
to indicate that he left the Base
Range none too soon. We are glad
to see him back in Carson and to be
able to contradict the statement of
his taking off.

GONE TO CALIFORNIA.—Capt. B.
H. Meder and his daughter, Mrs.
Lilly Nightingill, left on the train
last night for California. The Cap-
tain has been for several weeks con-
fined to his house by sickness. He
goes to seek for the benefits of a
change of air and locality. We
hope he may find what he seeks.

LEAVING US.—We learn from Dr.
Colton that his family are about
going to California with a possible
view to a lengthy sojourn there. He
is discussing the pros and cons of a
return to that State and trying his
fortune in business there.

We are sorry to learn that Mark
Gaige is at his home quite seriously
sick. He has our hearty sympathy
and earnest wish for a speedy re-
covery.

Our young friend Warren Note-
ware is to be a pupil at the State
University at Elko, we understand.
Of course he is to be one of his
sister's household.

THE STATE BOARD OF PARDONS.—
This body will meet on Monday next,
the 9th inst, at 11 o'clock A. M. Per-
sons having business before them
will be advised accordingly.

Judge Hillyer's court was in
session again yesterday in its old
quarters in the County building.

Andy Whitford was buried yes-
terday at Genoa.

By his qualities may a fool be known:
anger without cause, speech without
profit, change without motive, inquiry
without object, putting trust in a
stranger, and not knowing a friend
from a foe.—Arab Proverb.

A Massachusetts cow is said to have
contracted the habit of eating tobacco.

in order to eat the stems and refuse
leaves of a cigar factory near by.

TELEGRAPHIC.

Washington, April 6.—The Post-
office Department has prepared
advertisements inviting proposals
for mail service on about six hun-
dred routes in all parts of the coun-
try, for terms ranging from one to
four years from the 1st of next Sep-
tember. Bids will be received until
June 9th, and awards made by June
20th.

Washington, April 6.—At a Cab-
inet meeting yesterday Schurz pre-
sented charges against Gov. Potts of
Montana. These charges have been
on file for some time. Potts is ac-
cused of accepting bribes. It is not
known what action was taken, but
those familiar with the case express
the belief that Potts will be removed.
Charges were made some time ago
by Potts against James E. Galloway,
Secretary of the Territory, and yes-
terday James E. Mills was appointed
in his place; but after a re-examina-
tion of the case, Mills' appointment
was withdrawn and Galloway con-
tinued in office until further investi-
gation can be had.

San Francisco, April 6.—On the
downward trip of the Sacramento
boat last evening, Adam Mann, an
engineer, was shot and mortally
wounded by a drunken individual
named Patrick McGeough, who was
carelessly handling a revolver. Mr.
Mann has been employed for the
past five years as engineer by Mr.
Brown of Colinsville, and was ac-
companying that gentleman to this
city for the purpose of superintend-
ing the erection of new machinery.
McGeough is also an engineer, and
was on his way from New York to
this city in search of employment.

Washington, April 6.—Chamber-
lain will not resist Hampton, as he
believes the decision of Hayes was
meant to be favorable to Hampton.
He thinks the Democracy will have
control of South Carolina hereafter.
He has no intention of leaving South
Carolina.

Washington, April 6.—There can
be little doubt that the new Admin-
istration is disposed to be quite
severe with the second batch of
whisky swindlers, composed of Hes-
ing, Dr. Bush, Dickinson, Able &
Co., Powell and others. Proposi-
tions to compromise their cases,
engineered here by George McMillen
have been pending all Winter, and
were very nearly successful with the
last Administration. Possibly they
would have been entirely so except
for the illness of the Secretary of the
Treasury. The scheme for settle-
ment consisted of merely nominal
fines, and from present indications it
will not be accepted.

Chicago, April 6.—The Government
is inclined to compromise its judg-
ment on whisky suits against A. C.
Hesing of the city of Chicago for the
largest amount he can raise, and per-
haps to that effect have been sent to
District Attorney Bangs, who has
been instructed to push the suits
against Rehm as well as other
"crooks."
